Applications are invited from charities, social enterprise and other not for profit groups in rural villages of less than 5,000 people, who want to tackle rural poverty and social isolation in their area, by developing a sustainable use for a disused historic building1 in their village. You can see examples of projects supported in the pilot on DfC's website. With your agreement, we will inform the		

	The National Lottery Heritage Fund (NLHF) of all applications to this programme as, in the preceding pilot, many projects also applied for their support. If you are thinking of applying to them, they recommend early engagement. Awards will be made based upon an assessment of your application form and will be subject to the funds available to the partnership in each financial year.

Community interest companies and social

enterprise organisations must

have a governing document which shows the name, aim/purpose, objects

operating).

This clause should show that you are a not-for-profit group by confirming that any assets remaining after all debts are paid will be given to another voluntary group with similar aims. This document should also include details of your

Trustees or management committee.

As the Charity's resources are modest, the Trustees prefer to fund small to medium-sized non-profit organisations. Organisations should have an annual income under £750,000 and have less than six months free reserves.
