

How we work

Our partners meet once a week. Each referral is given to one of the partners listed to take forward with you.

We will make contact to arrange an assessment to discuss your needs and aim to provide an individual approach offering the right treatment at the right time. If our service is not appropriate for you, we give information on other options.

To refer yourself, or to make a referral for someone else (with their consent):

Tel: 07591 834 468
028 9039 2547

Partnership
Drug & Alcohol Service

Do you need help
with your drug
or alcohol use?

*A completely free
& confidential service*

Southern Trust HSC area

About the Step 2 service and the Step2 Partnership

We are a partnership made up of four organisations and are funded by the Public Health Agency (PHA).

Our service offers treatment and support for people 18+ with problematic drinking and/or harmful drug use.

We also offer support for family members and other loved ones, whether or not the person using alcohol or drugs is accessing treatment. This includes developing coping skills and building supports.

Members of the Partnership

ASCERT is a charity that has been providing community based counselling and early intervention services across Northern Ireland, helping people and families reduce the harm caused alcohol and drug misuse.

Tel: Admin 0800 2545 123

A community based early intervention and counselling service for adults and family members affected by alcohol, drugs or other substance use.

**Tel: Admin 07591 834 468
028 9039 2547**

The team offers an outreach service for adults (18+) - and their families - who are impacted by patterns of problematic alcohol or drug addiction. Individuals will be supported by our highly- trained and dedicated team to achieve agreed goals in relation to substance misuse, with the aim of reducing or abstaining from substances.

Tel: Admin 07710 113825

A community based service that provides treatment and support for people impacted by substance use. We offer harm reduction advice, information, and counselling to adults and family members affected by drugs and alcohol. Our support is tailored to meet the needs of the individual.
