

We would be grateful if you would consider completing the attached survey. The survey is being undertaken as part of the ongoing work around Children's Social Care and is aligned to the family support workstream which is seeking to gather evidence from across the sector in terms of the current offer of family support across the region. Please see further details below.

Family Support in Northern Ireland: Service Providers Survey

As part of the Children's Social Care Service Strategic Reform Programme, a dedicated Workstream has been established to create a more responsive model of family support in Northern Ireland.

If you are a practitioner or organisation providing family support services in Northern Ireland, we want to hear from you!

Please see the link to the Service Providers Survey:

<https://www.surveymonkey.com/r/FamilySupportServiceProviderSurvey25>

This short survey aims to understand the current family support services and gather your views on their future direction. The questionnaire will take around **10 minutes** to complete. It is anonymous and we encourage you to provide honest feedback.

If you have any questions about the survey, please contact Dr Donna Kernaghan at

donna@statsandstories.co.uk

Your input will be used to shape a more effective and coordinated approach to family support in Northern Ireland.

Thank you for your time.
