Enemy Alien - Walter's Journey through Adversity is written by Csilla Toldy. It is an illustrated book for young readers from the age of 8 - 99, telling the true story of Walter Sekules, who came to NI as a child in 1947, having survived the Holocaust in Siberia. His family went on to establish a knitting factory in Kilkeel where they often employed up to a hundred women, from both sides of the community, providing work during the Troubles. They contributed to the prosperity of the society and connected people from both sides of the community.
